

TO LIPELA CHILDREN'S HOME

Happy Birthday Lipelia Children's Home as you reach / attain 16years of offering services / giving help to the community by helping the needy children. We pray that you may live to offer these services to the community for many years as possible. As a product of this home I do take this opportunity to wish you a happy birthday as this home attaining 16years of its service to the community we all appreciated the help that we have been offered by this home.

I also take this opportunity to pass a vote of thanks to the people who started this home (Jane Mutahi & Peter Mutahi) and pray that they may live longer to enjoy the fruits of their admirable work to the community. Also I hasn't forget the sponsors of this home from Denmark Las & Lispect and the whole community from Denmark who has helped this home to be where it is today.

I also have a word for the children that are here & those who are not here lets work hard and when we succeed in life let us remember that this is our home and we have no other home apart from this so lets support it in everything we have, let us spread its good will to the community, let us find people to support it. To the staff workers who works here in this home we do appreciate your work towards this home and children remember that the blessings are on the way and never give up while giving this service to this home. I know sometimes is hard since all the children in here are not the same. May God Bless the work of your hands. I was among the first children who started this home and that's why I feel very honored to wish this home a happy birthday as it attains 16years of its service to the community.

I love this home and am proud to be a fruit of this home since I know what it means and if it wasn't for this home I cant be where I am today. As I conclude lets all be proud of this home. I love you all my brothers and sisters and all the fraternity of this home.

May God Bless this home.

I love you all.

From one of the fruit of this home

Johana Mathenge Waithira
